

MMS Technology and Email Acceptable Use Policy

Mount Madonna School (MMS) recognizes the value of computer and other electronic resources to improve student learning and enhance the administration and operation of the school. To this end, MMS encourages the responsible use of computers, computer networks, including the Internet, and other electronic resources and devices in support of the mission and goals of school.

Because the Internet is an unregulated, worldwide vehicle for communication, information available to staff and students is impossible to control. Therefore, MMS adopts this policy governing the voluntary use of electronic resources and the Internet in order to provide guidance to individuals and groups obtaining access to these resources on personal devices or MMS-owned equipment.

Mount Madonna School Rights and Responsibilities

It is the policy of the Mount Madonna School (MMS) to maintain an environment that promotes ethical and responsible conduct in all online network activities by staff and students. It shall be a violation of this policy for any employee, student, or other individual to engage in any activity that does not conform to the established purpose and general rules and policies of the network. Within this general policy, Mount Madonna School recognizes its legal and ethical obligation to protect the well-being of students in its charge. To this end, Mount Madonna School retains the following rights and recognizes the following obligations:

1. To log network use and to monitor file server space utilization by users, and assume no responsibility or liability for files deleted due to violation of file server space allotments.
2. To create and remove a user account on the school network.
3. To grant or restrict access to the wireless network available in school facilities.
4. To monitor the use of online activities. This may include real-time monitoring of network activity and/or maintaining a log of Internet activity for later review.
5. To provide internal and external controls as appropriate and feasible. Such controls shall include the right to determine who will have access to MMS-owned equipment and, specifically, to exclude those who do not abide by Mount Madonna School's acceptable use policy or other policies governing the use of school facilities, equipment, and materials. MMS reserves the right to restrict online destinations through software or other means.
6. To provide guidelines and make reasonable efforts to train staff and students in acceptable use and policies governing online communications.

Staff Responsibilities

1. Staff members who supervise students, control electronic equipment, or otherwise have occasion to observe student use of said equipment online shall make reasonable efforts to monitor the use of this equipment to assure that it conforms to the mission and goals of the Mount Madonna School.
2. Staff should make reasonable efforts to become familiar with the Internet and its use in the classroom so that effective monitoring, instruction, and assistance may be achieved.

User Responsibilities

1. Use of any electronic content, devices, or internet access provided by MMS is a privilege that offers a wealth of information and resources for research and learning. Where it is available, this resource is offered to staff, students, and other patrons at no cost. In order to maintain the privilege, users agree to learn and comply with all of the provisions of this policy.

Acceptable Use

1. All use of the Internet must be in support of educational and research objectives consistent with the mission and objectives of Mount Madonna School.
2. Proper codes of conduct in electronic communication must be used. Giving out personal information when using online resources for school purposes is inappropriate. When using e-mail, extreme caution must always be taken in revealing any information of a personal nature.
3. Network accounts are to be used only by the authorized owner of the account for the authorized purpose.
4. All communications and information accessible via the network should be assumed to be private property.
5. Exhibit exemplary behavior on the network as a representative of your school and community. Be polite!
